

## NOTICE OF PROPOSED ACTION

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under Chapter 445A of the Nevada Revised Statutes. The Administrator has received a complete application for a major modification of water pollution control discharge permit NEV20007 from the following applicant:

Verdi Meadows Utility Company, Inc.  
P.O. Box 459  
Verdi, Nevada 89439

The Applicant operates a wastewater treatment plant which serves the Glen Meadows Village/River Oaks Subdivision, that is located near Verdi, Washoe County, Nevada. The treatment plant site is located approximately one-half mile north of the Truckee River. The wastewater receives treatment in a sequential, re-circulating batch reactor (SRBR) that discharges to the disposal pond for further treatment, infiltration and evaporation. The three SRBR ponds are lined with bentonite amended soils. This major modification will increase the permitted influent flow from 0.0200 million gallons per day (MGD) to 0.0280 MGD.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes and implementing regulations, the Administrator proposes to issue a modified permit to discharge, subject to certain effluent limitations and special conditions.

Persons wishing to comment upon or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, regarding the proposed administrative determination(s), should submit their comments or request, in writing to:

Department of Conservation and Natural Resources
